## Post-acute Organisational Audit 2021

Document purpose	This document contains the appendices for the SSNAP 2021 Post-acute Organisational Audit National report.
Title	SSNAP 2021 Post-acute Organisational Audit report Appendices
Publication	December 2021
<b>Appendices</b>	
Appendix 1: Audit methodology	Full audit methodology for the Post-acute Organisational Audit 2021
Appendix 2: Intercollegiate Stroke Working Party Membership	Full list of Intercollegiate Stroke Working Party Members (at the time of audit) and the Organisations they Represent
Appendix 3: List of Participating Services by NHS Region	Full list of providers that participated in the Post-acute Organisational Audit 2021 broken down by NHS Region
Appendix 4: Post-acute Organisational Audit proforma 2021	Paper questionnaire of the webtool proforma completed by services for the Post-acute Organisational Audit 2021
Appendix 5: Summary of denominators used in the report	Information of the main denominators used throughout the Post-acute Organisational Audit 2021 report
Appendix 6: Key indicator criteria	Information about which KIs applied to each service type and how the key performance indicators are calculated
Appendix 7: Service commissioning	Full list of providers that participated in the Post-acute Organisational Audit 2021 along with details of the commissioner(s) for the service
Appendix 8: Maps	Detailed area-specific maps of Community-based multidisciplinary team locations

## Appendix 1: Audit methodology

### Eligibility criteria and recruitment

Services that see 20 or more stroke patients a year and provide one of the following service functions are eligible to participate:

- Post-acute inpatient care
- Early Supported Discharge (ESD) team
- Community Rehabilitation team
- Combined ESD/CRT
- Single discipline service
- Other: post-acute support service or residential/bedded facility
- 6-month assessment provider

Registration forms were submitted by each service which confirmed service type and details of the first and second lead for the audit.

### Data collection tool

Data were collected at service level and data were collected using a web-based tool accessible via the internet. Security and confidentiality were maintained using hospital codes and secure login.

High data quality was ensured using built-in validations which prevented illogical data being entered. All services were asked to export and check their data before final sign off on 7 May 2021. No changes to the data were possible after that point.

Each participating service was provided with a standardised help booklet containing data definitions, clarifications and context specific information. These help notes were also available alongside the web-based proforma itself. A telephone and email helpdesk was provided to answer any individual queries.

As this was a snapshot audit, sites were asked to reflect their service as at 1 April 2021. There were five sections in the proforma:

- Section 1: General organisational information
- Section 2: Vocational rehabilitation
- Section 3: Inpatient care
- Section 4: Community-based care
- Section 5: Other

The full audit proforma is in Appendix 4 of this report.

The team type determined which sections were to be answered:

- Post-acute inpatient care: Complete sections 1, 2 and 3 of the proforma
- Multidisciplinary services Complete sections 1, 2 and 4 of the proforma
- 6-month assessment provider: Complete sections 1 and 4 of the proforma
- Standalone/ single discipline service: Complete sections 1, 2 and 4 of the proforma
- Other: Post-acute support service or Residential/bedded facility: Complete sections 2 and 5 of the proforma

### **COVID-19 response**

If teams had reorganised as a temporary response to COVID-19, they were asked to report as per their usual commissioned service. It was acknowledged that reorganisations may have been in place for a prolonged period of time due to COVID-19. For teams where there was no intention to revert to their usual service delivery model, they were asked to report their current service structure.

### **Organisation of the audit**

The Healthcare Quality Improvement Partnership (HQIP) commissioned the audit on behalf of NHS England, as part of the National Clinical Audit and Patient Outcomes Programme (NCAPOP). The audit was carried out by the Sentinel Stroke National Audit Programme (SSNAP), which is based at King's College London. The audit was guided by a multidisciplinary steering group, the Intercollegiate Stroke Working Party (ICSWP), which oversees SSNAP (see Appendix 2 for ICSWP membership).

### **Evidence based audit**

The PAOA measured the structure of post-acute stroke services. It was evidence based using standards and evidence from sources including the Royal College of Physicians National Clinical Guideline for Stroke 5th edition, the National Stroke Service Model description of an Integrated Community Stroke Service (ICSS), and British Society of Rehabilitation Medicine, Specialised Neurorehabilitation Service Standards.

### **Key indicators of post-acute stroke organisation**

In order to future proof the PAOA, SSNAP has invested existing resources to streamline its data collection, analysis and reporting, ensuring future efficiencies in result dissemination. Therefore, unlike the previous PAOA, Key indicators were developed in this audit through research and reviewing the existing evidence. Applicable participating services were measured against specific criteria for each of these 14 key indicators (see Appendix 6 of this report for more information). Going forward it will be possible for future analysis to be directly comparable against the same key indicators to monitor progress over time.

KI2 and KI4 are multi-level key indicators, meaning that there are multiple thresholds in order for the KI to be met. If some of the thresholds are partially met, then one point is given. If all the thresholds

are met, then two points are given. So, although there are 14 KIs it was possible to score double points for some KIs.

The key indicators were applied to the following services:

-Post-acute Inpatient Teams: A total of 10 key indicators (score of 12) apply at team level to Post-acute Inpatient Services. (KI1, KI2, KI3, KI4, KI5, KI6, KI0, K11, KI13, KI14)

-Community-based Multidisciplinary Rehabilitation Teams: A total of 13 key indicators (score of 15) apply at team level to community-based multidisciplinary Rehabilitation Services. (KI1, KI2, KI3, KI4, KI5, KI7, KI8, KI9, KI0, K11, KI12, KI13, KI14)

-Standalone 6-month assessment provider: A total of 1 key indicator (score of 1) apply at team level to Post-acute Inpatient Services.

## **Standards**

The current standards against which post-acute stroke services are compared are outlined throughout the report. They include the new 14 key indicator standards.

## **Definitions**

### **Definition of rehabilitation**

For this audit, rehabilitation can be defined using the Wade, 2003 definition of community rehabilitation: The structure necessary for rehabilitation is the existence of a multidisciplinary team of people who can assess and treat most problems commonly faced by their patients. The process of rehabilitation is one of assessment (collecting and interpreting data), setting goals, intervening to provide support (which maintains the status quo) and treatment (which alters something), and then re-assessing to compare the situation after intervention with that aimed for. At some point the patient should leave this cycle. The intended primary outcomes (i.e. aims) of rehabilitation are maximizing the patient's participation in society while minimizing his/her pain and distress and minimizing the stress on the family.

### **Definition of vocational rehabilitation**

Vocational rehabilitation programmes for people after stroke should include (RCP National Clinical Guideline for Stroke 2016, p56):

- Assessment of potential problems in returning to work, based on the work role and demands from both the employee's and employer's perspectives.
- An action plan for how problems may be overcome.
- Interventions specifically designed for the individual which may include vocational counselling and coaching, emotional support, adaptation of the working environment, strategies to compensate for functional limitations in mobility and arm function, and fatigue management.
- Clear communication between primary and secondary care teams and including the person with stroke, to aid benefit claims or to support a return to work.

## How to read this report

### Denominators

It is important to note that denominators vary throughout this report depending on the number of services to which the analyses relate. To illustrate, denominators can include all services which participated (n=664):

- Post-acute inpatient services (n=93).
- Multidisciplinary services (n=245) which includes Early Supported Discharge services (ESD) (n=88), Community Rehabilitation teams (CRT) (n=86), and Combined ESD/CRT (n=71).
- 6-month assessment providers (n=198) which includes: standalone 6-month assessment services (n=78), post-acute inpatient services (n=12), Early Supported Discharge services (ESD) (n=29), Community Rehabilitation teams (CRT) (n=30), Combined ESD/CRT (n=48), and single discipline services (n=1).
- Single discipline services (n=66).
- Other residential or bedded facility (n=2).
- Other support services (n=180).
- Vocational rehabilitation providers (n=167) which includes post-acute inpatient services (n=12), Early Supported Discharge services (ESD) (n=43), Community Rehabilitation teams (CRT) (n=50), Combined ESD/CRT (n=44), single discipline services (n=16), and other residential or bedded (n=2).

### Presentation of results

Key aspects of post-acute stroke care organisation are addressed, including each of the 14 key indicators for the audit. There are comparisons with the 2015 PAOA where appropriate. Clinical commentary is also given throughout to provide a reflection on the bigger picture and key standards have been specified for all relevant sections.

## **Appendix 2: Intercollegiate Stroke Working Party Membership**

### **Chair**

Professor Martin James, Professor of Stroke Medicine, Clinical Director of King's College Stroke Programme

### **Associate Clinical Director, King's Stroke Programme**

Dr Ajay Bhalla, Associate Clinical Director, King's College London Stroke Programme, Consultant Stroke Physician at Guy's and St Thomas' Foundation Trust

Dr Rebecca Fisher, Associate Clinical Director, King's College London Stroke Programme

Ms Louise Clark, Head of Occupational Therapy/ Allied Health Professional lead for stroke services, Dorset County Hospital NHS Foundation Trust

### **List of Members and the Organisations they Represent**

#### *Association of Chartered Physiotherapists in Neurology (ACPIN)*

Professor Sarah Tyson, Professor of Rehabilitation, University of Manchester

#### *Association of British Neurologists*

Professor David Werring, Professor of Clinical Neurology, University College London

#### *British Association of Stroke Physicians*

Professor Rustam Al-Shahi Salman, President of British Association of Stroke Physicians, Professor of Clinical Neurology, Honorary Consultant Neurologist

#### *British Dietetic Association*

Ms Cara Lewis, Stroke Dietician, Guy's and St Thomas' NHS Foundation Trust

#### *British and Irish Orthoptic Society*

Professor Fiona Rowe, Professor of Orthoptics, University of Liverpool

#### *British Geriatrics Society*

Dr Khalid Ali, Senior lecturer in Geriatrics and Stroke Medicine, Brighton and Sussex Medical School

#### *British Psychological Society*

Dr Shirley Thomas, Associate Professor in Rehabilitation Psychology, University of Nottingham  
Dr Mark Griffiths, Consultant Lead Clinical Psychologist, Professional Lead & Head of psychology services, Liverpool Heart and Chest Hospital NHS Foundation Trust

#### *British Society of Neuroradiologists*

Dr Andrew Clifton, Interventional Neuroradiologist, St George's University Hospitals NHS Foundation Trust

*British Society of Rehabilitation Medicine / Society for Research in Rehabilitation*

Professor Diane Playford, Professor of Neurological Rehabilitation/Honorary Consultant in Rehabilitation Medicine, Warwick Medical School, University of Warwick

*College of Paramedics*

Mr Joseph Dent, Advanced Practitioner for Stroke, Salford Royal NHS Foundation Trust

*Getting it Right First Time (GIRFT)*

Dr David Hargroves, Joint Clinical Lead for Stroke, Getting it Right First Time

*Health Economics Advice*

Professor Anita Patel; Independent Health Economics Consultant/Honorary Professor, Queen Mary University of London

*Healthcare Quality Improvement Partnership (HQIP)*

Mr Mirek Skrypak, Associate Director for Quality and Development

*Informatics Advice*

Dr Andrew Hill, Consultant Stroke Physician, St Helens and Knowsley NHS Teaching Hospital

*King's College London*

Professor Charles Wolfe, Professor of Public Health King's College London

*National Clinical Director for Stroke (England)*

Dr Deborah Lowe, National Clinical Director for Stroke, National Speciality Adviser for Stroke Medicine, Consultant Stroke Physician, Wirral University Teaching Hospital NHS Foundation Trust

*NHS Wales*

Dr Shakeel Ahmad, Stroke Consultant, Clinical Lead for Stroke Services (Wales)

*Northern Ireland Multidisciplinary Association of Stroke Teams (NIMAST)*

Dr Patricia Gordon, Chair, NIMAST

Ms Nicola Moran, Website Liaison, NIMAST

*Patient representatives*

Mr Robert Norbury

Mr Stephen Simpson

Ms Marney Williams

*Royal College of General Practitioners*

Dr Iain Marshall, GP partner, Greyswood Practice

*Royal College of Nursing*

Ms Marie Austin, Royal College of Nursing Neuroscience Forum

Dr Gill Cluckie, Stroke Nurse Consultant, St George's University Hospitals NHS Foundation Trust

*Royal College of Occupational Therapists / Special Section Neurological Practice*

Professor Avril Drummond, Professor of Healthcare Research, University of Nottingham

Ms Louise Clark, Head of Occupational Therapy/ Allied Health Professional lead for stroke services, Dorset County Hospital NHS Foundation Trust

*Royal College of Physicians*

Professor Thompson Robinson, Vice Chancellor and Head of the College of Life Sciences and Dean of Medicine, University of Leicester

*Royal College of Radiologists*

Professor Philip White, Professor of Interventional and Diagnostic Neuroradiology and Hon Consultant Neuroradiologist, Newcastle Upon Tyne Hospitals NHS Foundation Trust

*Royal College of Speech and Language Therapists*

Professor Sue Pownall, Head of Speech and Language Therapy, Sheffield Teaching Hospitals NHS Foundation Trust

*Stroke Association*

Dr Rubina Ahmed, Associate Director of Systems Engagement, and Interim Executive Director of Locality Impact, Stroke Association

Mrs Juliet Bouverie; Chief Executive, Stroke Association

## Appendix 4: Post-acute Organisational Audit proforma 2021

### AUDIT OF POST-ACUTE STROKE SERVICES

#### Paper questionnaire

##### Introduction and overview

##### Organisational Audit of Post-Acute Services

The Sentinel Stroke National Audit Programme (SSNAP) has been commissioned by the Healthcare Quality Improvement Partnership (HQIP) to deliver an organisational audit of post-acute services. This will involve auditing post-acute providers directly about the care they provide for stroke patients. Post-acute providers who offer some form of stroke service outside of the acute setting are being approached for information on the structure and organisation of that service.

##### This information will be used to:

- measure the extent to which stroke rehabilitation is being organised
- establish a baseline of current service organisation
- enable providers to benchmark the quality of their service nationally and regionally
- identify improvements and make recommendations for change
- provide timely, transparent information to patients and the public about the quality of stroke care organisation in the post-acute setting
- provide commissioners with evidence of the quality of commissioned services

##### Definition of post-acute service

We define post-acute services as ANY service which follows acute hospital in-patient care. It includes any post-acute services which provides rehabilitation and/or support to people who have been discharged from hospital but who continue to need rehabilitation or support. This audit focusses on four main service types:

**Post-acute inpatient care:** Bed-based service for patients who continue to need inpatient (hospital) care with consultant review, but this no longer needs to be at an acute level i.e. they are no longer based on a HASU and do not require 24hr medical consultant cover. Patients predominantly require rehabilitation support prior to be able to reside in the community. May be provided in step down units such as in community hospitals.

**Early Supported Discharge (ESD):** A coordinated multi-disciplinary team intended to facilitate the earlier transfer of care from hospital into the community and providing intensive stroke rehabilitation in the patient's place of residence.

**Community Rehabilitation Team/Service (CRT):** Multi-disciplinary team that provides rehabilitation for patients in their own home or other community setting (including care homes and nursing homes).

This may be following hospital discharge, post ESD rehabilitation or at any point post stroke where rehabilitation needs are identified. The intensity or duration of this service should be determined by patient need.

**Combined ESD/CRT:** Your service provides both ESD and CRT (as outlined above) and also meets the following criteria: Shared clinical caseload, One management structure, Single point of access/referral route, Staffing establishment/budget is combined- with staff able to work flexibly across team functions as required and No re-referral to another part of your own team (i.e. from ESD to CST).

**6-month assessment provider:** Providers who carry out a 6-month outcome assessment of patients only. For the purpose of this audit, acute hospitals providing 6-month assessments will fall under this. This option excludes ESD, CRT, Combined ESD/CRT and Standalone/ single discipline that provide 6-month assessments as part of their service function.

**Standalone/single discipline service:** A stand-alone service with a specific rehabilitation function or single discipline rehabilitation (e.g. outpatients). These services do not function as a multidisciplinary team and may be clinic or domiciliary based.

**Other:** This may be support services or non-hospital based residential/bedded facility.

### Completing your questionnaire

Step by step instructions for how to complete and lock your questionnaire on the SSNAP webtool will be provided to support you during the data collection period (Post-acute> Organisational Audit 2021 > Documents). This paper document has been made available to give teams the opportunity to review the data being asked for and start the process of collecting on paper if they wish to, but data must be formally submitted via the SSNAP webtool.

Dependent on what service functions you have identified for your team during registration, you will only be required to answer questions pertaining to that service functions. The electronic audit questionnaire can be found by logging into the SSNAP webtool ([www.strokeaudit.org](http://www.strokeaudit.org)) and going to Post-acute> Organisational Audit 2021 > Proforma. For audit leads who are primary leads for more than one service, you will need to select the correct service from the drop-down list and complete the audit for each service separately.

**THIS DOCUMENT WILL NOT BE ACCEPTED AS A DATA SUBMISSION. ALL SUBMISSIONS MUST BE MADE VIA THE SSNAP WEBTOOL.**

This proforma should describe your stroke services as of **1<sup>ST</sup> April 2021** (see below guidance on commissioned services/COVID response). Please complete all questions. Clarification is available online against each question ('H' button) and in the supporting documentation provided (Post-acute> Organisational Audit 2021 > Documents). In some cases, you will either be directed to a later question or a response will not apply based on answers to key questions. Data should be submitted via the SSNAP Web Portal <https://www.strokeaudit.org>.

**COVID response:**

If you have had to reorganise as a temporary response to COVID-19 then please report as per your usual commissioned service. We appreciate that this reorganisation may have been in place for a prolonged period of time due to COVID-19. However, if there is no intention to revert to your usual service delivery model please report your current service structure.

**Final Deadline: 30<sup>th</sup> April 2021. Checking week 3<sup>rd</sup> - 7<sup>th</sup> May 2021**

Helpdesk:

Telephone: 01164649901

E-mail: [ssnap@kcl.ac.uk](mailto:ssnap@kcl.ac.uk) POST-ACUTE PROVIDER ID:[ ]

**Service Function**

From the post-acute registration process, we know that your team carries out the service functions that are ticked below:

	Service	
1	Post-acute Inpatient care	
2	Early Supported Discharge (ESD)	
3	Community Rehabilitation Team/Service	
4	Combined ESD/CRT	
5	6-month Assessment Provider	
6	Standalone/ Single Discipline Service	
7	Other Post-Acute Provider	

This information will be automatically populated based on what is indicated during registration for the team. Further information about post-acute service functions can be found here: [Post-acute service function](#)

## TAB ONE

**SECTION 1: General organisational information**

---

*Please refer to page 4 for clarification regarding commissioned services/service changes in response to COVID-19*

**1.1** Is this team registered with the Sentinel Stroke National Audit Programme (SSNAP) to participate in or receive information on the SSNAP clinical or organisational audit? Yes  No

**1.1a.** If yes, what is your SSNAP team code? [Free text]

**1.2** Is this service stroke/neurology specific? Yes  No

**1.2a.** If no, does it have a designated in-patient unit where stroke patients are treated? Yes  No

**1.3** This team treats:

(Select one only)

Only stroke patients

Stroke and neurology patients

General service that sees people with all conditions including stroke

**1.4** How many people with stroke have been treated by this service in the last 7 days? [range of 0-1000]

**1.5** How many new referrals of people with stroke has this service received in the last 12 calendar months? [range of 20-1000]

**1.5a.** Over the last year, has the number of referrals:

Stayed the same  Increased  Decreased

**1.6** How many new patient referrals of all types/conditions has this service received in the last 12 calendar months? [range of 20-3000]

**1.6a.** Over the last year, has the number of referrals:

Stayed the same  Increased  Decreased

**1.7** Do people with stroke under the care of this team have access to the following therapies/disciplines? (select all that apply).

	Yes, within service	Yes, but NOT within service	No	Total whole-time equivalents (WTE)	Headcount (number of individuals)	Average time from referral to first contact with therapy/discipline	Therapy/discipline provided fewer than 5 days/week	Therapy/discipline provided 5 days/week	Therapy/discipline provided 6 days/week	Therapy/discipline provided 7 days/week
(a) Occupational therapist	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>				<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
(b) Physiotherapist	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>				<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
(c) Speech and Language	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>				<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
(d) Clinical Psychologist	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>				<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
(e) Dietitian	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>				<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
(f) Social Worker	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>				<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
(g) Doctor	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>				<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
(h) Nurse	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>				<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
(i) Rehabilitation/Therapy assistant	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>				<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
(j) Patient/Family/Carer support	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>				<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

(k) Orthotics	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>				<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
(l) Orthoptics	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>				<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
(m) Podiatry	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>				<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**1.8** Do any staff from this service routinely carry out 6-month reviews of people with stroke?

Yes  No

**1.8a.** If yes, which disciplines routinely carry out six-month reviews? (Select all that apply)

Stroke specialist doctor (Consultant level/ Staff Grade)

Non-specialist doctor (Consultant level/ Staff Grade)

Junior doctor

GP

Nurse

Occupational therapist

Physiotherapist

Speech and Language Therapist

Clinical psychologist

Social worker

Support worker/therapy assistant

Dietitian

Orthoptist

Orthotist

Podiatrist

Voluntary sector employee

**1.8b.** If yes, how many 6-month reviews has this team carried out in the last 12 months?

[range of 1-1000]

**1.8c.** Which patients are offered a 6-month review by this service?

All patients previously under the care of this service

All patients discharged from the acute hospital(s) within this service's catchment area

**1.9** Are people with stroke discharged from this team given a copy of their own joint health & social care plan?

Yes No

**1.9.1.** Do people with stroke discharged from this team have access to commissioned services for the provision of emotional, social and/or practical support (e.g. provided by the third sector/charities)?

Yes No

**1.10** Do people with stroke under the care of this team have access to their rehabilitation plan?

Yes  No

**1.11** Does this team have patient information displayed/available on the following? (Select all that apply)

Patient versions of national and/or local guidelines/standards

The causes and treatment of stroke

Secondary prevention of stroke

Social Services local Community Care arrangements

Local and national patient organisations (e.g. Stroke Association)

The Department for Work and Pensions

How to participate in stroke research

None of the above

**1.12** Does this team routinely offer a structured training programme for carers?

Yes  No

**1.13** Does this team provide access to a self-management tool or course for people with stroke?

Yes  No

**1.14** Is there the facility for nurses to attend internal or external training courses relating to stroke management?

Yes  No

**1.14a.** If yes, how many sessions have these nurses attended in the last 12 months?

(1 session = half day) [sessions]

**1.15** Is there the facility for therapists to attend internal or external training courses related to stroke management?

Yes  No

**1.15a.** If yes, how many sessions have these therapists attended in the last 12 months? (1 session = half day) [sessions]

**1.16** Is there the facility for rehabilitation/therapy assistants to attend internal or external training courses related to stroke management?  
Yes  No

**1.16a.** If yes, how many sessions have these therapy assistants attended in the last 12 months? (1 session = half day) [sessions]

**1.17** Are individual people with stroke under the care of this team discussed in a formal multidisciplinary team meeting? Yes  No

**1.17a.** If yes, how often would each patient be discussed in 7 days? (Select only one option)

- Less than once a week   
Once a week   
Twice a week   
More than twice a week

**1.17b.** Which disciplines consistently attend these meetings? (Select all that apply)

- Clinical psychologist   
Dietitian   
Occupational therapist   
Physiotherapist   
Social worker   
Specialist doctor   
Specialist nurse   
Speech and Language therapist   
Rehabilitation/Therapy Assistant   
Family/carer support worker   
Orthotist   
Orthoptist   
Podiatrist

**1.18** The Clinical Leadership of this team (carrying the ultimate clinical responsibility for all patients under the care of this team) is provided by a registered healthcare professional(s) from which discipline? (Select all that apply)

- Clinical psychologist   
Dietitian

- Occupational therapist
- Physiotherapist
- Specialist doctor
- Specialist nurse
- Speech and Language therapist
- Orthoptist
- Orthotist
- Podiatrist
- No Clinical leadership

**1.19** Who commissions this service? [drop down list]

**1.20** How many patients have been recruited into stroke research studies/trials in the last 12 months? [range of 0-1000]

**1.21** Please provide the postcode of where your team is based (Main site)? [postcode]

**1.21a.** Is your team based in more than one location? Yes  No

**1.22** Have you had to reorganise as a temporary response to COVID-19 even though here you are reporting your usual commissioned service? Yes  No

## TAB TWO

**SECTION 2: Vocational rehabilitation**

---

*Please refer to page 4 for clarification regarding commissioned services/service changes in response to COVID-19*

**2.1** Is any part of this team commissioned to provide vocational rehabilitation?

Yes

No

Not commissioned but provided

**2.1a.** If yes, who commissions this vocational rehabilitation service? [drop down list]

**2.1b.** If no, is there an alternative local service you can refer people with stroke to for vocational rehabilitation (e.g. other rehabilitation services or charities)? Yes  No

**2.1i.** What is the name of the vocational rehabilitation service? [Free text]

**2.2** Where does your service/team provide vocational rehabilitation? (Select all that apply)

Acute hospital

Community hospital

Doctors' surgery/health centre/clinic

Leisure Centre/Gym/Community Centre

Patient/carer/family member's home

Care home

Person's workplace

**2.3** What disciplines are responsible for delivering vocational rehabilitation for this service? (Select all that apply)

Clinical psychologist

Occupational therapist

Physiotherapist

Social worker

Specialist nurse

Speech and Language therapist

Rehabilitation/Therapy assistant

Family/carer support worker

**2.4** Who is offered vocational rehabilitation by this service? (select one only)

- All people with stroke of working age
- Only people with stroke considered fit enough to return to work
- Only people with stroke considered fit enough to return to work and who were not previously unemployed

**2.5.** What is the average number of vocational rehabilitation sessions that are provided per patient? [whole number 1-100]**2.5a.** What frequency are the intervention sessions? (select one only)

- Daily
- Weekly
- Twice weekly
- Fortnightly
- Monthly
- No set schedule

**2.6** In this service, when would a person with stroke become eligible for vocational rehabilitation? (Select all that apply)

- Upon discharge/referral from inpatient care
- Upon discharge/referral from outpatient/domiciliary care
- On their return to work
- When patient is discharged home

## TAB THREE

**SECTION 3: Inpatient care**

---

Please refer to page 4 for clarification regarding commissioned services/service changes in response to COVID-19

- 3.1** What is the total number of beds within this service that may be used for stroke patients?  
[number of beds]
- 3.2** Where is this stroke service provided? (Select all that apply)
- Rehabilitation beds in acute NHS trust
  - Rehabilitation beds in community NHS trust
  - Combined acute and community NHS trust
  - Social enterprise
  - Private sector provider
- 3.3** Over the last six months, what has been the average length of time from acute referral to a bed being available for a stroke patient? (in days; 0-999) [ ]
- 3.3a** Over the last year, has the average wait time:  
Stayed the same  Increased  Decreased
- 3.4** Who provides consultant leadership for this service?
- Stroke Physician
  - Rehabilitation Medicine Consultant
  - Consultant Allied Health Professional
  - Consultant Nurse
- 3.4a.** Who provides medical care for stroke patients under the care of this team? (Select all that apply)
- Stroke specialist doctor (Consultant level/ Staff Grade)
  - Non-specialist doctor (Consultant level/ Staff Grade)
  - Consultant in Rehabilitation medicine with specialty in neurorehabilitation
  - Junior doctor/non-career grade
  - GP
- 3.5** How many days per week is there a consultant led ward round? [0-7]
- 3.6** How many nurses are normally on duty at **10AM** for these beds? (Enter 0 if no staff of that grade).

	Weekdays	Saturdays	Sundays/Bank Holidays
<b>3.6i.</b> Registered nurses	[ ]	[ ]	[ ]
<b>3.6ii.</b> Unregistered nurses	[ ]	[ ]	[ ]

**3.6.1** Of the registered nurses on duty at **10AM**, how many are trained in:

	Weekdays	Saturdays	Sundays/Bank Holidays
<b>3.6.1i.</b> Swallow screening	[ ]	[ ]	[ ]
<b>3.6.1ii.</b> Stroke assessment and management	[ ]	[ ]	[ ]

**3.7** How many nurses are normally on duty at **10PM** for these beds? (Enter 0 if no staff of that grade).

	Weekdays	Saturdays	Sundays/Bank Holidays
<b>3.7i</b> Registered nurses	[ ]	[ ]	[ ]
<b>3.7.ii</b> Unregistered nurses	[ ]	[ ]	[ ]

**3.7.1** Of the registered nurses on duty at **10PM**, how many are trained in:

	Weekdays	Saturdays	Sundays/Bank Holidays
<b>3.7.1i</b> Swallow screening	[ ]	[ ]	[ ]
<b>3.7.1ii</b> Stroke assessment and management	[ ]	[ ]	[ ]

**3.7.2** What is the total establishment in whole time equivalents (WTEs) of nurses who treat stroke patients?

Nurse band	Whole time equivalents WTE	Headcount (number of individuals)
Band 1	[ ]	[ ]
Band 2	[ ]	[ ]
Band 3	[ ]	[ ]

**3.8** Does this in-patient facility have access to an on-site therapy gym? Yes  No

**3.9** Does this in-patient facility have access to an on-site therapy kitchen? Yes  No

## TAB FOUR

**SECTION 4: Community based care**

---

*Please refer to page 4 for clarification regarding commissioned services/service changes in response to COVID-19*

**4.1** How many days per week is this service provided? (select one only)

Fewer than 5 days

5 days

6 days

7 days

**4.2** Can people with stroke be re-referred back to this service after discharge? Yes  No

**4.2a.** If yes, how are they re-referred? (Select all that apply)

Directly (self, patient and/or carer)

Hospital/secondary care

GP/primary care

Third sector support services (e.g. Stroke Association Connect)

**4.3.1** Where are treatment/assessment sessions provided? (Select all that apply)

Acute hospital

Community hospital

Doctor's surgery/health centre/clinic

Leisure Centre/Gym

Patient/carer/family member's home

Care home

**4.3.2** What proportion of treatment/assessment sessions are/were provided by each method (total should sum to 100%)?

Treatment/assessment sessions	Current	One year ago
Face to face (individual) [0-100]	[0-100]	[0-100]

Face to face (in groups) [0-100]	[0-100]	[0-100]
By video consultation (individual) [0-100]	[0-100]	[0-100]
By video consultation (in groups) [0-100]	[0-100]	[0-100]
By telephone [0-100]	[0-100]	[0-100]
<b>Total</b>	[100]	[100]

**4.4.1** What is the average waiting time over the last 6 months (in days) between discharge/referral and this service first carrying out an initial review? [0-999]

**4.4.1a** Over the last year, has this average waiting time:

Stayed the same  Increased  Decreased

**4.4.2** What is the average waiting time over the last 6 months (in days) between discharge/referral and treatment commencing for this service? [0-999]

**4.4.2a** Over the last year, has this average waiting time:

Stayed the same  Increased  Decreased

**4.5** Does this service treat/assess patients who live in care homes? Yes  No

**4.6** Does a member of this team attend multidisciplinary team meetings (MDT) at the local acute hospitals to discuss stroke patients currently receiving acute care? Yes  No

**4.7** Is there a limit for how long stroke patients have access to this service? Yes  No

**4.7a** If yes, how is this measured (Select one)??

**Duration**

- 0-6 weeks
- 7-12 weeks
- 13-26 weeks
- >26 weeks

**Appointments**

- 5 sessions   
6-10 sessions   
11-15sessions   
16+ sessions

**4.8** Which patient reported outcome measures are routinely recorded by your service? (Select all that apply)

Modified Rankin scale

Barthel Index

Nottingham Extended Activities of Daily Living

Berg Balance Scale

EQ5D (quality of life measure)

PHQ-9 (depression)

GAD-7 (anxiety)

Other

**4.9** Which of the following criteria does your combined ESD/CRT meet (Select all that apply):

Shared clinical caseload

One management structure

Single point of access/referral route

Staffing establishment/budget is combined- with staff able to work flexibly across team functions as required

No re-referral to another part of your own team (i.e. from ESD to CST)

None of the above

## TAB FIVE

**SECTION 5: Other**

---

*Please refer to page 4 for clarification regarding commissioned services/service changes in response to COVID-19*

**5.1** This team treats: (Select one only)Only stroke patients Stroke and neurology patients General service that sees people with all conditions including stroke **5.2** Who provides this service? (Select one only)Post-acute support service Residential/bedded facility **5.3** How many stroke patients do you see a year? [ ]**5.4.** Select the services you provide (select all that apply).Information and signposting service Benefit support Patient, family and carer support Communication support Emotional support Exercise and education Re-ablement service or equivalent Equipment, wheelchair support Befriending/peer support/stroke club/respite Intermediate care beds Level1/Level 2/Level2b unit Residential facility **5.5** Where are these services provided? (Select all that apply)Acute hospital Community hospital/ community based bedded facility Doctor's surgery/health centre/clinic Leisure Centre/Gym Patient/carer/family member's home Care home/ nursing home

**5.6** Is your service formally commissioned?

Yes  No

**5.6a** If yes, who commissions this service? (Select all that apply)

Health (trust, CCG, LHB)

Social care/local authority

Voluntary sector / charitable funds

Other

**Appendix 5: Summary of denominators used in the report**

Total number of services	n=664
<b>Post-acute inpatient team</b>	n=93
<b>Multidisciplinary services</b>	n=245
This includes Early Supported Discharge team (ESD) (n=88), Community Rehabilitation teams (CRT) (n=86), and Combined ESD/CRT team (n=71)	
<b>6-month assessment providers</b>	n=198
This includes: Standalone 6-month assessment providers (78), Post-acute Inpatient team (n=12), Early supported discharge team (ESD) (n=29), Community Rehabilitation teams (CRT) (n=30), Combined ESD/CRT team (n=48), and Single discipline service (n=1)	
<b>Single discipline services</b>	n=66
<b>Other Residential or Bedded Facility</b>	n=2
<b>Other Support Services</b>	n=180
<b>Vocational rehabilitation providers</b>	n=167
This includes: Post-acute Inpatient team (n=12), Early supported discharge team (ESD) (n=43), Community Rehabilitation team (CRT) (n=50), Combined ESD/CRT team (n=44), Single Discipline service (n=16), and Other Residential or Bedded (n=2)	
Services commissioned to carry out vocational rehabilitation as a sole or additional type of service.	n=49
Services not commissioned to but provide vocational rehabilitation	n=118
Services in England	n=591
Services in Wales	n=42
Services in Northern Ireland	n=28
Services in the Isle of Man and Jersey	n=2
National Stroke Association Connect	n=1

**Appendix 6: Key indicator criteria**

Key indicator	Key indicator title	Applicable services	Criteria	Additional criteria
1	The service is stroke/neuro specific	Post-acute inpatient & multidisciplinary services	Team responded 'Yes' to Q1.2	
2	Team has an appropriate level of staffing for all core disciplines	Post-acute inpatient team	<p>For 2 points: The team responded 'Yes' to having the following disciplines (Q1.7):</p> <ul style="list-style-type: none"> <li>- occupational therapy</li> <li>- physiotherapy</li> <li>- speech/language therapy</li> <li>- doctor</li> <li>- nurse</li> </ul> <p>AND</p> <p>Meet the following thresholds for each discipline's WTEs (1.x)/stroke beds (Q3.1) (3.x):</p> <ul style="list-style-type: none"> <li>- OT: 0.81/5</li> <li>- PT: 0.84/5</li> <li>- SLT: 0.4/5</li> <li>- Total of all stroke nurses from Bands 1-8: 1.35 (3.7.2)</li> </ul> <p>What is the total establishment in whole time equivalents (WTEs) of nurses who treat stroke patients?)</p>	For 1 point: Team responded, 'Yes OR Yes but' to doctor requirement, and 'Yes' to all other disciplines included and the threshold for each discipline is median WTEs/stroke beds
		Multidisciplinary services	<p>For 2 points: The team responded 'Yes' to having the following disciplines (Q1.7):</p> <ul style="list-style-type: none"> <li>- Occupational Therapy</li> <li>- Physiotherapy</li> <li>- Speech/Language therapy</li> <li>- Doctor</li> <li>- Nurse</li> </ul> <p>AND</p> <p>Meet the following thresholds for each discipline's WTEs</p>	For 1 point: Team responded, 'Yes or Yes but' to doctor requirement, and 'Yes' to all other disciplines included and the threshold for each discipline is median WTEs/patients

Key indicator	Key indicator title	Applicable services	Criteria	Additional criteria
			(1.x)/patients (S01PatientsAll12Months): - OT: 1/100 - PT: 1/100 - SLT: 0.4/100	
<b>3</b>	Team has appropriate access to all relevant disciplines	Post-acute inpatient & multidisciplinary services	Team responded 'Yes' or 'Yes but' to having all the following disciplines (Q1.7): - occupational therapy - physiotherapy - speech/language therapy - clinical psychologist - dietitian - social worker - doctor - nurse - rehabilitation assistant - carer - orthotic - orthoptics - podiatry	
<b>4</b>	Team provides rehabilitation every day	Post-acute inpatient & multidisciplinary services	For two point: Team responded '7 days' for two of the following disciplines (Q1.7) and for MDTs only Q 4.1 = 7 day service: - occupational therapy - physiotherapy - speech and language therapy - clinical psychologist - rehabilitation assistant	For 1 point: Team responded '7 days' for one of the following disciplines (Q1.7) and for MDT only Q 4.1 = 7 day service: - occupational therapy - physiotherapy - speech & language therapy - clinical psychologist - rehabilitation assistant

Key indicator	Key indicator title	Applicable services	Criteria	Additional criteria
5	Team includes access to clinical psychology	Post-acute inpatient & multidisciplinary services	Team responded 'Yes' or 'Yes but' to clinical psychology Q1.7d	
6	Inpatient nurses are trained in stroke assessment and management	Post-acute inpatient team	Nurses trained in stroke assessment Q3.6.1 (ii) is greater than half of all registered nurses (Q3.6) on weekdays and weekends	
7	Team provides rehabilitation to people in care homes	Multidisciplinary services	Team responded 'Yes' to 4.5 (Does this service treat/assess patients who live in care homes?)	
8	Team regularly attends inpatient MDT	Multidisciplinary service	Team responded 'Yes' to Q4.6 (Does a member of this team attend multidisciplinary team meetings (MDT) at the local acute hospital(s) to discuss stroke patients currently receiving acute care?)	
9	Team service provision is not time-limited	Multidisciplinary service	Team responded 'No' to Q4.7 (Is there a limit for how long stroke patients have access to this service?)	
10	Teams has at least weekly formal multidisciplinary team meeting with core disciplines in attendance	Post-acute inpatient & multidisciplinary services	Team responded at least once per week to Q1.17a and the following disciplines are present at team meetings Q1.17b: <ul style="list-style-type: none"> <li>- occupational therapy</li> <li>- physiotherapy</li> <li>- speech and language therapy</li> <li>- nurse</li> <li>- doctor is also required for Post-acute inpatient teams only</li> </ul>	

Key indicator	Key indicator title	Applicable services	Criteria	Additional criteria
11	Team offers stroke training for all disciplines	Post-acute inpatient & multidisciplinary services	The following disciplines receive stroke-specific training Q1.14, Q1.15, Q1.16: <ul style="list-style-type: none"> <li>- nurses</li> <li>- therapists</li> <li>- rehabilitation assistants</li> </ul> Needs to be 'Yes' to all three staff groups, and the number of sessions attended needs to be above two.	
12	Team commences rehabilitation within recommended no. days from discharge	Multidisciplinary service	Team responded with the following waiting times for initial review Q4.4.1 <ul style="list-style-type: none"> <li>- If Early Supported Discharge teams waiting time is less than 1 day</li> <li>- If Combined ESD/CRT, waiting time is less than 2 days</li> <li>- If Community Rehabilitation teams, waiting time is less than 3 days</li> </ul>	
13	Team participate in SSNAP clinical audit	Post-acute inpatient, multidisciplinary services and standalone 6-month assessment providers	Team responded 'Yes' to Q1.1 Registered on SSNAP	
14	Team actively involved in research	Post-acute inpatient & multidisciplinary Services	Team responded greater than or equal to 1 for Q1.20 How many patients have been recruited into stroke research studies/trials in the last 12 months?	

Key indicator	Key indicator title	Applicable services	Criteria	Additional criteria
15	Access to commissioned vocational rehabilitation	All ISDNs	At least 50% of teams (Post-acute inpatient, multidisciplinary services, single discipline services) in the ISDN responded 'Yes' or 'Not commissioned but provided' to Q2.1 (Is any part of this team commissioned to provide vocational rehabilitation?)	
16	Provision of 6-month reviews	All ISDNs	The total number of patients seen for six-month review Q1.8b(If yes, how many 6-month reviews has this team carried out in the last 12 months?) for all teams in an ISDN is at least 50% of the total patients (estimate based on number of stroke patients at 72hrs for all routinely admitting hospitals in that ISDN (SSNAP clinical audit))	
17	Provision of formally commissioned support services	All ISDNs	<p>The total number of stroke patients seen by teams in the ISDN who responded 'yes' to the criteria below is at least 50% of the total patients (estimate based on SSNAP clinical audit):</p> <p>Q5.4</p> <ul style="list-style-type: none"> <li>• Information and signposting service</li> <li>• Patient, family and carer support</li> <li>• Communication support</li> <li>• Emotional support</li> <li>• Exercise and education</li> <li>• Befriending/peer support/stroke club/respice</li> </ul> <p>AND these teams responded 'Yes' to 5.6 (Is your service formally commissioned?)</p> <p>AND these teams responded 'Yes' to 5.6a (If yes, who</p>	

Key indicator	Key indicator title	Applicable services	Criteria	Additional criteria
			commissions this service?) <ul style="list-style-type: none"><li>• Health (trust, CCG, LHB)</li><li>• Social care/local authority</li></ul>
